

Subscribing to Notices & Events

Southport State High School App

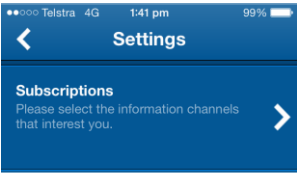

This is a quick visual guide to help you set up subscriptions for Notices & Events. The subscription feature allows you to choose notifications that you will receive.

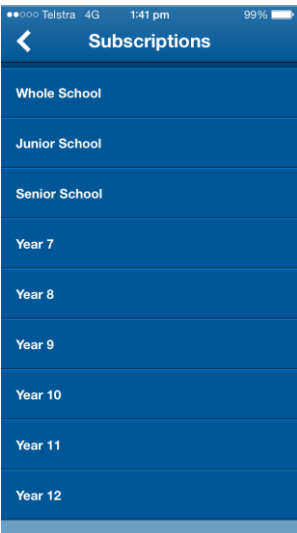

If you haven't already, download the app "Southport State High School" from the App Store. Open up the application and locate the settings button. This can be found in the very bottom right corner of the app. This button appears as a small cog.

Note: Depending on your device, you may need to scroll down for this to appear as the difference in screen size varies across makes and models.

Click the cog and you will be taken into the application settings screen.

Once the settings page opens, you will be given several options. Select the first option – Subscriptions.

On the Subscriptions page you'll see a number of options. Touching an option places a tick beside that option. Touching that option again will deselect it.

Junior school includes years 7, 8 and 9. Senior school is years 10, 11 and 12, or you can select just one year level.

You can select more than one subscription option which will allow you to get notifications for only those notices and events relevant to you.

Return to the main screen of the app. Now when you click Notices or Events you will see only those items relevant to the subscription options you've chosen.
